**TO ALL
INTERESTED PARTIES**

INVITATION FOR MARKET CONSULTATION No. 40701

Dear Sir or Madam,

Kozloduy NPP EAD hereby informs all interested parties that in connection with the preparation for a public procurement contract award and determination of estimated cost, as per article 44 of the Public Procurement Act, it now calls for indicative offers for “Supply of pneumatic actuators for containment isolating pneumatic valves at Units 5&6, produced by STAHL-ARMATUREN PERSTA GmbH”.

The offers shall include the following:

- detailed description of the offered pneumatic actuators for containment isolating pneumatic valves for Units 5&6 produced by STAHL-ARMATUREN PERSTA GmbH in compliance with the technical specification enclosed below;
- unit price and total cost w/o VAT, currency;
- information about date and terms of delivery, warranty period;
- information about the manufacturer, catalogue information;
- representation document of the manufacturer (authorisation document issued by the manufacturer which allows the sale);
- goods delivery documentation:
 - passport
 - certificate of origin
 - certificate of quality issued by the manufacturer
 - drawing and technical specifications
 - declaration of conformity
 - document with storage conditions and service life
 - accurate address, contact person, phone number, fax, e-mail, website.

Enquiries in relation to the market consultations performed may be sent until 21.03.2019, 4:00 pm, to the e-mail: commercial@npp.bg, and clarifications will be published in the buyer's profile – Market Consultations section.

Deadline for submitting indicative offers: 28.03.2019, 4:00 pm, e-mail: commercial@npp.bg.

The indicative offers and any other information exchanged in relation to the market consultations performed will be published in the buyer's profile – Market Consultations section.

By submitting indicative offers each participant in the market consultations agrees that the offer and any other information provided as a result of the market consultations will be made publicly available at the website of Kozloduy NPP EAD.

The Customer reserves the right to use indicative offers, received during the process of market consultations, for awarding public procurement contracts to the cost limit as per article 20, paragraph 4 of the Public Procurement Act.

For any additional information, please contact Georgi Kamenov – Marketing Specialist, tel. +359 973 72601, e-mail: georgik@npp.bg

“Supply of pneumatic actuators for containment isolating pneumatic valves at Units 5&6, produced by STAHL-
ARMATUREN PERSTA GmbH”

Item No.	Description and technical specifications of the Customer	Units	Qty
2020			
1	Pneumatic actuator of a new type complete with new internals installed including: spacing collar, spindle and a set of closing wedge plates, connecting elements with the body, body gaskets for wedge valve type 400JN22.2, DN200, PN 40, drawing MB- E 9056A, a set of position switches with cable designed for installation outside the containment for 5VF10,20,30S01,02 5VF40,50,60S,02,03.	Set	12
2	Pneumatic actuator of a new type complete with new internals installed including: spacing collar, spindle and a set of closing wedge plates, connecting elements with the body, body gaskets for wedge valve type 400JN22.2, DN200, PN 40, drawing MB- E 9056A, a set of position switches with cable designed for installation inside the containment for 5VF10,20,30S04 5VF40,50,60S01	Set	6
3	A set of gaskets for the new type of pneumatic actuator	Set	2
4	Spare position switches for pneumatic actuators of a new type	pcs	1
5	Spare gaskets for bonnet-body	pcs	2
6	Devices for blocking the rod in the open position	pcs	18
2021			
1	Pneumatic actuator is of a new type completed with new internals installed including: spacing collar, spindle and a set of closing wedge plates, connecting elements with the body, body gaskets for wedge valve type 400JN22.2, DN200, PN 40, drawing MB- E 9056A, a set of position switches with cable designed for installation outside the containment for 6VF10,20,30S01,02 6VF40,50,60S,02,03.	Set	12
2	Pneumatic actuator is of a new type completed with new internals installed including: spacing collar, spindle and a set of closing wedge plates, connecting elements with the body, body gaskets for wedge valve type 400JN22.2, DN200, PN 40, drawing MB- E 9056A, a set of position switches with cable designed for installation inside the containment for 6VF10,20,30S04 6VF40,50,60S01	Set	6
3	A set of gaskets for pneumatic actuator of a new type	Set	1
4	Spare position switches for pneumatic actuators of a new type	pcs	1
5	Spare gaskets for bonnet-body	pcs	6
6	Devices for locking the rod in the open position	pcs	18
2022			
1	Pneumatic actuator complete with new internals installed including: spindle, closure element and bellows for bellows-operated stop valve Persta 205AN74.2 type, a set of connecting elements and body gaskets and a set of position switches with cable designed for installation outside the containment	Set	5
2	A set of gaskets for pneumatic actuator of a new type	Set	1
3	Spare position switches for pneumatic actuators of a new type	pcs	1
4	Spare gaskets for body	pcs	2

5	Devices for locking the rod in the open position	pcs	5
6	Pneumatic actuator complete with new internals installed including: spindle, closure element and bellows for bellows-operated stop valve Persta 205AN74.2 type, a set of connecting elements and body gaskets and a set of position switches with cable designed for installation outside the containment 5,6TY10S01,02	Set	1
7	Pneumatic actuator complete with new internals installed including: spindle, closure element and bellows for bellows-operated stop valve Persta 205AN74.2 type, a set of connecting elements and body gaskets and a set of position switches with cable designed for installation inside the containment 5,6TY10S03	Set	2
8	Devices for locking the rod in open position	pcs	6

2022

1	Pneumatic actuator complete with internals installed including: spacing collar, spindle and a set of closing wedge plates made of stainless steel for gate valves with pneumatic drive 400JN 22.2 type for installation inside the containment 5,6UX11,12S33	pcs	4
2	Pneumatic actuator complete with internals installed including: spacing collar, spindle and a set of closing wedge plates made of stainless steel for gate valves with pneumatic drive, 400JN 22.2 type, for installation outside the containment 5,6UX11,12S31	pcs	4
3	A set of gaskets for pneumatic actuator of a new type	Set	1
4	Spare gaskets for bonnet-body	pcs	2
5	Spare position switches for pneumatic actuators of a new type	pcs	1
6	Devices for locking the rod in the open position	pcs	8

Indicative offer as per the market consultations performed, No. 40701, with subject "Supply of pneumatic actuators for containment isolating pneumatic valves at Units 5&6, produced by STAHL-ARMATUREN PERSTA GmbH"
