CLARIFICATIONS

REGARDING: Conducting market consultation on the grounds of Article 44 of the PPA for submission of indicative proposal for the "Supply of equipment for Reconstruction of auxiliary systems 5,6SS, 5,6ST and 5,6VC to turbine generators TBB-1000-4Y3".

Ladies and gentlemen,

In connection with the conducting of market consultations for submission of indicative proposal for the "Supply of equipment for Reconstruction of auxiliary systems 5,6SS, 5,6ST and 5,6VC to turbine generators TBB-1000-4Y3", Kozloduy NPP EAD provides the following clarifications:

Question No. 1: We would like to ask you regarding the several points of the delivery, where the manufacturer "Lotus" is shown. We presume that company AO «LOTOS» based in Yekaterinburg, Russian federation, is meant. Considering the current situation in trade relations with Russia and applied sanctions is it possible to provide for equivalent goods made by a manufacturer based in the EU?

Response: It is possible. It is necessary to indicate the manufacturer. The technical specification of the equipment pertaining to the market consultation documentation states: For all positions where manufacturers are cited - read "or equivalent".
