

# HEALTH AND SAFETY MANAGEMENT POLICY OF KOZLODUY NPP EAD

The Management of Kozloduy NPP conducts a purposeful policy of strict compliance with the currently effective requirements of laws and regulations on health and safety at work in the Republic of Bulgaria.

The health and safety policy of Kozloduy NPP aims to achieve the following **objectives**:

- protect the life, safety and performance efficiency of the plant employees;
- preserve the health of the personnel and public while carrying out activities associated with the use of nuclear energy;
- eliminate or limit to the maximum extent the existing risks in the production process;
- adopt and implement decisions to take legal, socio-economic, organisational and technical, sanitary and hygienic, and medical prophylactic measures aimed at ensuring safe and healthy working conditions.

The Management of Kozloduy NPP EAD states that it will observe the following principles in the efforts to achieve these objectives:

- admit to work persons who possess the necessary qualification and competence, and are adequately trained and instructed;
- review the actual working conditions at workplaces;
- provide effective protective equipment;
- provide sanitary-welfare facilities;
- provide healthcare services;
- plan measures to continuously improve working conditions;
- perform periodic reporting, analysis and evaluation of health and safety at work.

The Policy on Health and Safety Management is communicated to all the Company employees and each and every one of them is responsible for applying its principles in their efforts towards achieving the set objectives.
